

Kerawinds

This 437 sq. ft., 2 bedroom/1 bath cabin works great as a rental unit or family/hunting retreat.

Kerawinds

Whether you are looking for a vacation cabin, a lodge, or just a getaway retreat, the Kerawinds from Conestoga offers you a charming but practical solution.

Our cabins offer all the rustic charm of log living with the best of engineered wood to provide a uniquely crafted expression of your dream cabin. Our kiln-dried, laminated Everlast™ logs, weather tight interlocking corners and structurally superior laminated roof beams make the Kerawinds a durable, low maintenance log structure that will last for generations.

Conestoga offers a wide selection of log cabin and log home floor plans. We have experienced Project Consultants who know cabins and understand the issues you face as you permit and build your log cabin. Our in-house design staff can work with you to develop the right plans for your needs, and your local building codes. The kits we sell are one of the most complete kits in the industry--at very affordable prices.

Call us today. Get the log rolling on your cabin getaway. Conestoga Log Cabins & Homes--Crafted For Any Lifestyle.
