

# Cabela's Log Cabins: When your dream meets reality

Cabela's log cabins are constructed of solid-wood, glue-laminated Everlast logs that have been kiln dried to 15% or below, giving them more strength than standard logs and eliminating shrinkage and warping. The unique interlocking corner system has a tight compression fit, so there are no gaps or cracks to fill. All logs are pre-cut, pre-sized and notched to accommodate wiring, so no sawing or drilling is necessary. Floors are made of high-quality 2" x 6" No. 1 dense Southern yellow pine boards that go together using tongue-and-groove construction and will stand up to years of traffic. Marvin egress windows in each cabin meet

the Building Officials' and Code Administrators' National Building Code 10.10.4 for emergency exits. The roof is constructed of pre-finished forest green steel decking and is backed by a 35-year warranty. Electrical package includes all the components (wire, hardware, lights and smoke detectors) needed to completely wire the cabin from the service panel (service panel box not included). All cabins come unfurnished. Kitchenette and bathroom fixtures are not included. Assembly instructions include a detailed manual and video, as well as a toll-free phone number for access to a courteous technical support staff.

## Requirements

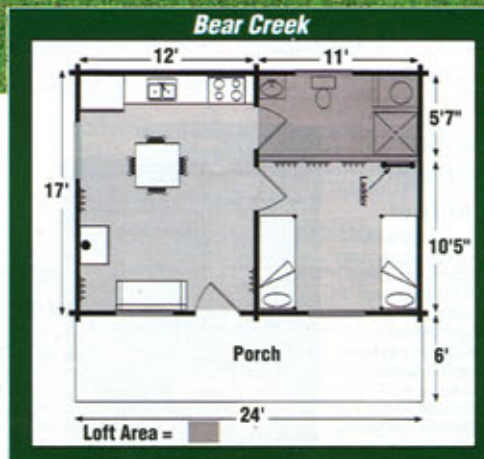

Check with local and state officials for zoning regulations and to get the proper building permits needed for any potential cabin site. Secure some means of getting electric, propane, water and sewer to the cabin site. The cabin will be shipped to the paved road nearest to the desired site. Moving it from there will be the customer's responsibility. The cabin will be shipped from Lebanon, Pa., in approximately six to eight weeks. Freight charges average approximately \$1.95/mile. Call Cabela's Customer Service at 1-800-237-4444, ext. 113, for order and shipping information.

## Cabela's Bear Creek

17 ft. x 24 ft. with a 6-ft. porch

**Cabela's Exclusive!** Ideal for small family outings or as a hunting and fishing camp for friends. The large kitchen area measures 12 ft. x 17 ft. and has ample room for appliances and a dining table (not included). A 61-sq.-ft. storage loft above the bathroom provides extra space to stow gear and supplies. A 6-ft. full-length covered porch makes a great place to kick back and watch the sunset after a long day in the woods or on the water. Four windows. Roof peak height: 13'2". 384-sq.-ft. main floor. JSW- 52-1400 \*

## Cabela's Trout Run (not shown)

20 ft. x 30 ft. with a 6-ft. porch

This cabin's roomy 571-sq.-ft. size makes it a versatile choice for comfortable weekend getaways with family, friends and fishing buddies. The kitchen area has ample room for a large dining table (not included), and the living room area will easily accommodate a couch and a love seat as well as a full entertainment center. A spacious 51-sq.-ft. loft above the bathroom makes a convenient place to store equipment, bedding and extra gear when not in use. The 6-ft. covered porch runs the full length of the cabin. Seven windows. Roof peak height: 14'2". JSW- 52-1401 \*
